Economic Growth In The MENA Region

Part 1

www.me-jobs.com

In **2024**, the Middle East and North Africa (MENA) region experienced modest **economic growth**, with a projected rate of **2.2%**. This subdued performance is attributed to ongoing geopolitical uncertainties and structural challenges.

However, forecasts for **2025** are more **optimistic**, anticipating a rebound to approximately **3.6%**, driven by a recovery in **oil production** and an **easing of regional conflicts**.
