Country-Specific Economic Outlooks

Part 3

www.me-jobs.com

Saudi Arabia: The Kingdom's economy is expected to accelerate in **2025**, with growth projected at **4.4%**, up from an anticipated **1.3% in 2024**. This improvement is largely due to increased oil production as OPEC restrictions are eased.

Egypt: Egypt's economic growth is forecasted to reach **4.0% by June 2025**, benefiting from reforms aimed at stabilizing public finances and encouraging private-sector development.

Tunisia: In the **third quarter of 2024**, Tunisia's economy **grew by 1.8% year-on-year**, primarily driven by advancements in the agricultural sector. The government aims to increase economic **growth to 3.2% in 2025**.
